

## Lidl Carpark Upgrade Bundle

<b>Client:</b>	Lidl Ireland GMBH
<b>Form of Contract:</b>	Client Bespoke
<b>Duration:</b>	Jun 2015 to Sep 2015
<b>NRS Role:</b>	Works Contractor and PSCS

### Main Description

This project involved remedial works to two existing live car parks at two Lidl retail stores at Gort and Carraigaline. Works Required:

- Removal of existing interlocking paving stones, and made good where possible.
- Tarmacadam finish to areas with high levels of ground displacement (truck access routes).
- Replacement of existing public lights with LED lights
- Installation of new lights
- Associated ducting works, excavations etc.

Works took place in a live retail environment where works were phased to facilitate the ongoing retail business of the store.

Works took place adjacent to live public areas and required extensive temporary traffic and pedestrian management.

Existing utilities were encountered during these works. Utilities were identified, marked at ground level and protected for the duration of the works.
