

N25 Begerin Road Safety Major Improvement Scheme

Client:	Wexford County Council
Form of Contract:	Public Works Contract for Minor Building and Civil Engineering Works
Duration:	Feb 2012 to May 2012
NRS Role:	Main Civil Engineering Contractor & Principal Contractor

Main Description

The Road Safety Major Improvement Scheme at Begerin, on the N25, Co. Wexford consisted of a 2.5km Overlay with minor widening. The works included the provision of service ducts and the removal of the existing concrete post and rail road boundary. The works included:

- Site clearance works.
- Excavation of 6500m³ of rock and earthworks.
- 2.5km of overlay works.
- Liaison with local landowners and construction of various accommodation works.
- Extensive traffic management measures as works are taking place on a live road. Both pedestrian and live traffic were managed for the duration of the contract.
- Diversion of utility services and installation of new service ducts (electrical, telecoms).
- Installation of all foul and surface water drainage.
- Boundary treatment including erection of fencing and hard and soft landscaping.
- Installation of signage
- Application of all lining for the length of the project.
- Works took place on a live road with an AADT of 6837.
