

**BUILDING, CIVIL ENGINEERING
& POWER SOLUTIONS**

ENVIRONMENTAL POLICY

Noel Regan & Sons Building & Civil Engineering Contractors UK Ltd (NRS Group) is committed to delivering high quality solutions with regards to Environmental matters. NRS Group commitment to Environmental matters is reflected in our core values: Quality, Collaborative and Pride. All Managers, Supervisors and Operatives have duties and responsibilities under this Policy.

Aims of the Policy

NRS Group recognises that protection of the environment requires all activities to be conducted in a controlled manner. NRS Group is fully committed to environmental best practice and are committed to delivering high environmental value to all Stakeholders.

NRS Group aims to minimise the negative impact of our operations by underpinning all activities with the following principles;

- Develop comprehensive integrated Management Procedures, which aim to ensure compliance with all relevant Environmental Legislation, Regulations, Codes of Practice and any other Standard to which the Company subscribes. The procedures will evaluate the Company's environmental aspects and impacts resulting in the setting of clear objectives with the aim of establishing continual improvement in environmental performance.
- Comply with relevant Environmental Legislation and Client requirements.
- Effectively manage and control our activities identifying aspects and impacts of our works and mitigate risks associated with our undertakings whilst minimising the environmental impacts and ensuring that the implications of new processes are fully assessed prior to their introduction.
- Improving resource efficiency by reducing the use of natural resources, reducing waste and diverting the waste produced away from landfill and improving the efficiency of water use to reduce our carbon footprint.
- Maintain the Company Environmental Procedures in line with the ISO 14001 standard and to continue to develop the Company processes and procedures to improve environmental performance of our activities, products and services through objectives, targets and programmes, reinforced by monitoring and reporting.
- Promote ownership and control of environmental issues at both corporate and site level.
- Aim to engage with the supply chain in improving their environmental performance and responsible sourcing.
- All employees will be actively encouraged to report near misses and environmental concerns in order to create a culture of responsibility towards environmental matters.
- Provide the necessary training, resources and support in order to ensure that the company can fulfil the requirements outlined in this policy.
